

Take Control of **Your Screens**

Engage audiences with digital signage and empower Administrators with device management. All from one central place.

ENGAGE AND INSPIRE WITH DIGITAL SIGNAGE. Create an informed company with customizable digital signage. Motivate teams with company updates and results. Personalize meeting rooms with a welcome screen and meeting room calendar. Showcase your brand to visitors with videos, imagery, and websites.

REDUCED ENVIRONMENTAL FOOTPRINT. Save on your energy bill while saving the planet by scheduling screens to turn off once the workday is done. Minimize energy consumption with regular software updates.

EFFICIENT, REMOTE MAINTENANCE FOR ADMINISTRATORS. Empower IT departments to manage screens more effectively with real-time, remote access to Airtame-enabled devices. Change settings and conduct updates en masse. Delegate control based on rank, location and use case.

SECURITY FOR ENTERPRISE NETWORKS. SSL encryption for secure communication between Airtame devices and Airtame Cloud.

DYNAMIC COLLABORATION. Involve employees by enabling multiple administrators to share custom messaging, company news and imagery.

Mix and match Airtame devices between Lite and Plus, according to your needs. Devices aren't locked to subscription seats, so you can switch them at any time.

LITE

Everything you need for effective deployment and maintenance

Free for all devices

Access to:

- Bulk firmware updates
- Global device management
- Unlimited number of devices
- Unlimited number of users
